

FUNDING DECISIONS APPROVED/CARRIED FROM GLADSTONE REGIONAL COUNCIL – GOING THROUGH COUNCIL MINUTES FROM LAST YEAR (2013)

To qualify for the list, a particular proposal must include council funding whether into long-term planning or immediate for projects or associations within a physical boundary.

This list does not include funding decisions which could theoretically benefit whole region, such as fleet purchases, council hires and does not include decisions which are unclear such as disaster relief and “re-surfacing of various sites”.

Entries in GREEN indicate decisions made within Gladstone City Council areas, those in ORANGE reflect decisions made outside of the GCC area.
